WHILE regretting the defeat of the other estimable gentlemen who were nominated on the Republican legislative ticket in this county, we congratulate the commuaity over the election of W. P. Hubbard, Esq. of this city, as a member of the House of Delegates. He is the right man in the

The Republicans showed a disposition to ignore politics in the nomination and election of Judges in this circuit. They had a friendly feeling toward Judge Boyo and were disposed to support him. But the Democracy, with that facility for blundering with which they are so righly endowed, ignored this friendly disposition and snubbed the Republicans. The latter said, "Very well; what suits you suits na" So they nominated two candidates of their own, both of whom seem now to be elected. The Democracy are, as things now look, completely left, just as they de are laughing over the way they have been "hoist by their own petard."

## Indiana Settles It.

It was frequently remarked before the late elections in Ohio and Indiana that the combined verdict of both of these States, on one side or the other, would settle the question of the Presidency. Some were even so rash as to say that the verdict of Indiana alone would settle it. among these latter was the Democratic shitor of the Washington City Post. On the 28th of September last he expressed himselt as follows:

As we understand the Republican man-As we understand the Republican man-gen, they propose to make Indiana the Presidential battle ground. It is to be left to a Democratic State to decide between Hancock and Garfield. We accept the proposition and its at-uedant consequences. If Indiana goes Republican two weeks from to-day, we

give the election up. If Democratic, the Republicans, Now let us hear from Indiana.

Well, Indiana has gone Republican, and now, we presume, the editor of the Post concedes the election of Garfield. Whether he does or not, however, makes little difference. The country accepts the great change that has occurred in that State a es almost certain indication of the final result. No event of the future is more dearly defined than the election of Garfeld on the second day of November.

The county of Ritchie has given the Boublican candidate for Governor 230 mjority. This is a gain of 328 over its Congressional vote of two years ago. Take the vote of that county, and the vote of Hancock, of Marshall and of Wood, and ake what we may expect from Tyler, and atealso the diminished Democratic majoritwo years ago, and the disaffected feeling that prevails against Colonel Wilson snong many Democrats, and altogethe hey make up an encouraging prospect for Republicans on the 2d of next month. There is, to say the least, a fair show for anying the district.

The almost certain coming defeat of Essecck will make many West Virginia Independent, 1,750 Democrats indifferent about going to the polls in November. In 1872, they, in comson with Democrats in all the States, los their grip after the result of the October sections, and the Republicans carried the Sute for Grant. The prospect of defeat is a grat deadenner on the feelings of many years. This being the case, the Republicans have every cause to pull off their case and roll up their sleeves and go to sork for the election of John A. Hutchig.

The vote in Taylor county is as follows:

The vote in Taylor county is as foll eween him and Wilson. Bassell is out the field, and will possibly retire from

us a candidate. Whether he does or bot, his vote will be a mere corporal's part. So that practically all the votes to beast will be cast for Hutchinson and

In support of the petition the memorialists submit that the best interests of the church demand the formal recognition of these principles:

First—That our churches should be free and open to all who may wish to worship.

and open to all who may wish to worship in them. Second—That in them there should be no distinctions on the ground of wealth

in Ohio and Indiana. He replied:

"The victory in Indiana I regard as an event of greater importance and benefit to the country than anything that has happened since the surrender of Lee. I think it settles the Presidential question. It shows that the avowal by Wade Hampton and other leading Confederates, that the South was solid, made so for the purpose of vindicating the principles for which Lee and Jackson fought, has had the effect of making the North solid. The influence of this election will be very great in New of making the North solid. The influence of this election will be very great in New York. Interest now turns upon this State, and, in fact, upon this city. Counties out-side of New York and Brooklyn will give largely increased Republican majorities that can only be overcome by some gigan tic fraud in New York City. If the busi ness men who were in procession Monday evening will give their personal attention to the capvass, no such fraud can be per-petrated."

Ex-Governor Jewett expressed his opinion as follows: "The result of the elections in Ohio and Indiana will secure us every Northern State and Florida. It will give us New York by a majority of 40,000. The National Committee has thought that even in the event of losing Indiana, Garfield and Arthur would carry New York by 20,000 majority. The committee will press the campaign with great vigor in New York, New Jersey, Connecticut, Oregon and California; and will caution the Republicans everywhere to be slert and energetic, with a view of rolling up the largest possible majority. The canvass in Indiana was fought with the distinct understanding that the result would settle the Presidential election in November. Demands Rade for the Withdrawal of the Indiana Incumbrance—He Seems Ready for the Sacrifice.

INDIANAPOLIS, October 14.—There is a universal demand that English step down and out. It is understood that the New part of the Sentine towards Eoglish is extremely bitter. It will not take much coaxing. All the State officers, without exception, lay the disaster to Mr. Eag:

SHERMAN AT CHICAGO.

CHICAGO, October 14.-Secretary Sherman arrived this morning and was accompanied to the Grand Pacific Hotel by a re ception committee. At noon he quietly entered the Board of Trade room, in company with the president and secretary of the board, and as soon as he was recog-nized, the shout was raised, "Here's Resumption," "Here's Specie Payments," and the bulls and bears united in welcoming him with cheers and clapping of hands. He made a brief speech, whose points were heartily appreciated and applauded by his attentive auditors.

The Republican demonstration in hono of John Sherman, Secretary of the Treas ury, to-night, was very large and enthus astic. The Garfield and Arthur clubs o the city were out in force with torches and bands of music, making a fine appearance The meeting was held at McCormick's Hall, and was presided over by Hon. N. K. Fairbank. Preliminary speeches were nade by the chairman and Franklyn Mc Vesgh. At a quarter before 9 o'clock Secretary Sherman, accompanied by Gen Logan and Hon. C. B. Farwell, entered and took seats on the platform. His ap pearance was the signal for loud applause

The Secretary said: "I accepted with diffidence the kind in vitation of your Republican Committee to speak on political matters in this great speak on political matters in this great city of Chicago. The time fixed was immediately after the October elections. As Ohio and Indiana, your neighbors, intimately connected with you in history and geographical association, were to be the scenes of the preliminary contest, it might have been embarrassing for me to participate in that canvass and take part in yours. But these preliminary contests are over and the Presidential election is transferred from the October States to each and ferred from the October States to each and every State in the Union. "The drift and current of public opinion,

though very hopeful for the Republican party, is not so decisive but that the people of every State must now diligently and satively take their part in the great canvass this fall, which, in my judgement, is of greater importance than any since the Government. As a Republican earnestly devoted to the principles and policy of the party, but, no doubt, brave by my long association with it, I am entirely willing to rest my hope of success on a comparison by independent and intelligent voters of the principles and conduct of the two parties." He then discussed the issues involved in the pending contest of strength between the Republican and Democratic parties, as to

STATES BIGHTS AND NATIONAL SUPREMACY. He pointed out that the Republican party tands upon the principle that the laws of the United States operate on the people and should be enforced sgainst the people in their favor. That the Demo-cratic party opposes this view, seeking to belittle, degrade and cripple the National Government: it is a grievous mistake to say that the dispute about National and State rights is obsolete. It is in theory and practice as active in the South as ever. HE SOUTHERN DEMOCRATIC PARTY NULLI-

If the Democratic party gains public plunder in the division of the spoils of office. If the Democratic party gains control of the entire branches of the Government it will complete the capture of all its powers, and will then restore its policy by the humiliation and degradation of the national rights and authority. There has not been a presidential contest since the Republican party gained possession of the Government where the election of a Democratic nominee would not have greatly affected and endangered the business interests of the country, and in some cases its safety and even existence. But what reason do these genilemen give for a change? What good do they propose to accomplish? What single interest to advance?
